

SECRETARY OF WELFARE Robert H. Finch has ordered that all food and drinks containing the artificial sweetener cyclamate be removed from grocery shelves by Feb. 1, 1970, because of new evidence the substance had caused cancer in animals. (AP Wirephoto)

Cyclamate Used In Food As Well As Soft Drinks

CHICAGO (AP) — The major producer of cyclamate says 15 per cent of all soft drinks sold in the United States in 1968 contained the artificial sweetener which has been banned by the federal government.

Abbott Laboratories of North Chicago, which manufactured more than half the cyclamate used in this country, said Sunday it had stopped producing the sweetener "pending further discussions."

Low Calorie Aide
Millions of weight-conscious Americans will have to turn to new low-calorie nourishment.

Russians May Switch Space Flight Plans

MOSCOW (AP) — The failure of Soviet cosmonauts to put together a space station on the three-space flight last week could result in a shift of emphasis back to unmanned flights.

The lack of any spectacular achievement by the seven spacemen seems to have put the proponents of manned flights on the defensive. They talk as if they are trying to stave off a return to the policy of extreme caution that followed the Soyuz 1 crash in April 1967 in which a cosmonaut was killed.

This tragic setback obviously shook the Kremlin badly and made it extremely leery of manned flights. The Soviet press took to extolling unmanned flights, saying they were just as useful as manned missions in obtaining scientific information and preferable because no risk of human life was involved.

The de-emphasis of the cosmonaut program took some of the sting from comparisons with what the United States was accomplishing with men in space during this period.

A more favorable attitude toward manned flights started to show after the successful flight of Soyuz 3 last October and the linkup of Soyuz 4 and 5 in January.

The Soviet leaders seemed reassured of the safety of manned flights and once again confident that their space program could hold its own in direct competition with the U.S. effort.

Weather

ESCANABA AND VICINITY—Rain today with highs around 50. Mostly cloudy and colder tonight with chance of light snow, low near 32. Mostly cloudy and cool Tuesday with a chance of light rain or snow, high about 45. Wednesday—partly cloudy and cool. Sun sets today at 5:45 p. m., and rises Tuesday at 7:14 a. m. North-east to northerly winds 10 to 15 mph today becoming northerly tonight. Probability of precipitation: 60% today, 40% tonight and 40% Tuesday. Lowest temperature overnight was 45 degrees, highest Sunday was 50. Rainfall up to 6:30 a. m., was .09 inches.

Judge Kayoes Statements By Sen. Kennedy

WILKES-BARRE, Pa. (AP)

— A judge refused today to allow statements made by Sen. Edward M. Kennedy, D-Mass., to be introduced in evidence at an autopsy hearing into the death of Mary Jo Kopechne.

Police Chief Dominick J. Arena of Edgartown, Mass., the first witness at the hearing on a petition by a Massachusetts prosecutor to exhume the body of the 28-year-old former secretary, told the court that he had taken a statement from Kennedy.

When he sought to read it at the request of Dist. Atty. Edmund Dinis of New Bedford, Mass., lawyers for Mr. and Mrs. Joseph A. Kopechne of Berkeley Heights, N.J., objected on grounds it was hearsay.

Judge Bernard C. Brominski of Common Pleas Court sustained the objections four times over the repeated efforts of Dinis' assistant, Armand Fernandes Jr. to have it read into the record.

Arena described the accident scene and told how he was summoned to the dike bridge on Chappaquiddick Island on the morning of July 19 and had assisted a scuba diver in recovering Miss Kopechne's body from the submerged automobile.

Fernandes asked Arena to describe Miss Kopechne's appearance as the police chief cradled her body in his arms.

"She was dressed in a white blouse, dark slacks, a pair of sandals and everything else appeared normal, except that she was dead," Arena said. "There were no injuries that I could see."

The police chief was asked on cross examination by the Kopechne attorney if he had seen any blood on her body or on her clothing.

"No sir!" the chief replied. Arena said the body was pulled out of the automobile by a rope, which diver John N. Farrar of the Edgartown Fire Department had attached to the body.

The attorney also wanted to know whether Arena had suffered any injury himself during the diving operation.

The police chief said he had suffered a cut on one of his toes but did not know if it had bled. Arena also said that at no time could he recall that his foot came in contact with the body.

Dinis has alleged that there was blood in Miss Kopechne's nose and mouth and on her clothing.

Fire Kills Pair

DETROIT (AP) — A mother and her 5-year-old son were killed and two other children seriously injured early today in a house fire on Detroit's East Side.

Killed were Mrs. Alberta Temple, 24, and her son Theodore. The cause of the fire was not immediately known.

Education Reform Plan Ready For Gauntlet Run

LANSING (AP) — Gov. William Milliken's education reform package this week begins its long run down the legislative gauntlet.

House and Senate convene at noon Tuesday after a week's recess while Education and Taxation committees sampled public reaction to the plan at hearings across the state.

Complaints Aired
Even as they met, complaints and "better ideas," asked for by Milliken in a legislative address, began to swirl around the 10 bills and two resolutions like the first winter blizzard.

Senate Minority Leader Sander Levin, D - Berkley, questioned whether Milliken's plan would remove education from politics and called it a "penalty's worth of leadership for a pound of public responsiveness."

In the House, Majority Floor Leader George F. Montgomery, D - Detroit, called the plan "a con game on the public" with "chicken" school aid proposals.

Strictly Political
Montgomery's GOP counterpart, Rep. William Hampton, R - Bloomfield Hills, charged Montgomery's concern "is clearly not in the interests of our children, but strictly political." He challenged Montgomery to produce "constructive alternatives."

Nixon Reportedly Eying Cease-Fire

WASHINGTON (AP) — Amid increasingly voiced sentiment for a faster U.S. withdrawal from Vietnam, President Nixon reportedly is considering a unilateral cease-fire.

The President may propose the cease-fire during his Nov. 3 address to the nation on the Vietnam situation, a White House source said Sunday.

Opposition Noted
Indications Nixon may, in fact, have been affected by opposition to the war expressed in last Wednesday's Vietnam Moratorium piled up as the President spent the weekend huddled with his top military and diplomatic advisors at Camp David.

And former Vice President Hubert H. Humphrey, who last week emerged from a meeting with Nixon to endorse his Vietnam policy, said in Tokyo he is sure the United States will carry out "a systematic and accelerated withdrawal of U.S. forces" from South Vietnam.

Humphrey was among a number of prominent figures—in and out of the administration—who spoke out on Vietnam over the weekend.

Cease-Fire Asked
According to Newsweek Magazine, Nixon has been urged by his military advisors to pro-

claim a U.S.-initiated cease fire so enemy violations could be used "as evidence of the enemy's reluctance to end the war."

The advisors feel, the magazine said, a unilateral cease-fire "would create no great risk to

U.S. troops in the field."

The White House source said Nixon could be expected to announce such a cease-fire during his Vietnam address or, by not mentioning it, signal to Hanoi the idea has been rejected.

The President conferred at

the Maryland retreat with Secretary of State William P. Rogers, Secretary of Defense Melvin R. Laird, Atty. Gen. John N. Mitchell and his national security advisor, Dr. Henry A. Kissinger.

Humphrey Encouraged

Humphrey said when he talked about troop withdrawals with Nixon he had "encouraged the President to give it all possible support on the executive level."

In Washington, Sen. Fred Harris, chairman of the Democratic National Committee, called for speeded up troop withdrawals and Sen. Edmund S. Muskie, D-Maine, said United Nations Secretary-General U Thant should negotiate a political settlement of the war.

Harris spoke on the NBC radio-television program "Meet the Press" and Muskie appeared on ABC's "Issues and Answers."

Military Victory Out

Harris said Nixon has acknowledged the war can't be won militarily and added that the President "ought to get about getting us out of it on a much more rapid and systematic basis."

Muskie said U Thant would be "a natural" to get the Saigon government and the National Liberation Front—political arm of the Viet Cong—together on a coalition government for South Vietnam.

And Sweden's new prime minister, Olof Palme, in an interview Sunday, defended his country's humanitarian aid to North Vietnam and asserted that in the South "the NLF at present is more representative of the aspirations of the Vietnamese people than the junta in Saigon."

The prime minister was interviewed in Stockholm for the CBS program "Face the Nation," broadcast Sunday from Washington.

The Saigon government also came under attack from Sen. Charles Goodell, R-N.Y., who has proposed that Congress require a complete withdrawal of U.S. troops from South Vietnam by Dec. 1, 1970.

DR. CLIFTON R. WHARTON JR., above, has been named president of Michigan State University. He is shown in his New York office. Wharton, 42, is the first negro to be named president of a major public university. He presently is vice president of the New York Agriculture Development Council and an economist specializing in development problems of Southeast Asian nations. (AP Wirephoto)

Old Black Magic?

Witchcraft Charges Fly Around Pentagon

WASHINGTON (AP) — The White House suspects the Senate Democratic Policy Committee of working legislative black magic to cast a spell on President Nixon's proposals to Congress.

This hint of witchcraft produced surprise and some amusement among the men who run the panel of Senate Democratic leaders.

Nice To Be Noticed
One committee Democrat said it was nice to be noticed. Senate Democratic Leader

Mike Mansfield, the chairman, was not about to deny a bit of wizardry, so he supplied this description of a committee meeting:

"We put on our skull caps, our robes, turn the lights out and act like zombies."

The argument over the pace of congressional action on Nixon's proposals vaulted into the occult at a White House briefing Oct. 10.

Not Quoted Directly
Under the rules that briefing, on the hurryup message President Nixon sent to Capitol Hill, can be attributed only to White House sources, and cannot be quoted directly.

Those rules remained in effect, but Senate Democrats identify the source as Bryce N. Harlow, Nixon's assistant for Congressional affairs.

At that briefing, the Senate Democratic Policy Committee was said to be functioning in a fashion more powerful than the House Rules Committee, which schedules legislation for action on the floor of the House.

Doors Locked
According to the White House, when Mansfield calls leaders of the policy committee to his office near the Senate floor, closes and locks the door and goes into black magic, the administration has no chance to influence the decisions.

And this, it was said, puts Nixon in a leadership situation that has not been experienced by a new President since Zachary Taylor took office 120 years ago, facing an opposition Congress.

Offer Cooperation
"I thought he knew me better than that," Mansfield said of Harlow. "The record speaks for itself. The policy committee wants to cooperate with the President."

The committee has 13 members, chosen by Mansfield as majority leader, and ranging from northern liberals, like Sen. Philip A. Hart of Michigan, to the conservative Richard B. Russell of Georgia.

Its majority stands with the more liberal rank of the Democratic party—but Mansfield said it has done nothing this year on which there was not unanimity.

Federal Safety Plan Proposed For Railroads

WASHINGTON (AP) — Spurred by the "new and catastrophic potential for death and destruction" in train wrecks, the Nixon administration has proposed the first comprehensive federal railroad safety legislation.

Sending the recommendations to Congress, Transportation Secretary John Volpe last week cited "a steadily rising trend" in rail accidents, many involving shipments of hazardous poisons and explosives.

"Existing rail safety statutes are inadequate to enable the government to respond to the problem," Volpe said, noting that—in an abrupt about-face since last spring—the railroads themselves now seem to agree.

Unlike airlines and trucks, railroads thus far have escaped any sort of comprehensive minimum safety standards set by the government, despite attempts in the past to pass such legislation.

The proposal itself does not outline specific safety measures, rather it would permit the secretary of transportation to draw up regulations setting minimum standards for, among other items, tracks, rolling stock and loading procedures.

Bank Made First Move, No Robbery

MOBERLY, Mo. (AP) — Robbers went through a lot of trouble in the community of nearby Clifton Hill over the weekend to rob a bank that wasn't there.

They took a ladder from a lumber yard next to the old Clifton Hill Savings Bank, and cut power lines to a burglar alarm.

After failing in an attempt to enter through a rear door, they entered by removing iron bars from a window.

The building, vacated almost two years ago, was empty. The building's owner found blow torches left by the intruders when he visited the building Sunday.

Today's Chuckle

Secretary to her boss: "Either you give me a raise or I'll start wearing a long skirts."

Call Oct. 30 Meeting

School District Needs Discussed

By LYNN BELLEFEUIL
POWERS — Only 26 persons turned out for the public meeting called by School Board President Norman Kell and held Thursday night to acquaint the voters of the Powers Spalding School District with problems facing the district.

Superintendent Jerome Albright spoke on the need for additional classroom space to accommodate the two classes presently held at the parochial school in Spalding. The two rooms which are being leased for one year only, may not be available next year as that space is needed for proper conducting of the local CCD program.

A third classroom is needed for the elementary school, to replace the room taken from the high school this year due to the jump in enrollment when the parochial school was closed. A fourth classroom is needed to house the elementary library which has outgrown its present cramped quarters.

Enrollment Grows
Purchase of additional mobile classrooms is regarded as questionable economics since the purchase and installation price is roughly half the cost of construction of a permanent classroom which has about five times the life of the mobile unit, he said. Cost of upkeep and heating (electric) is higher with the mobile units, and they are inconvenient in many ways as they cannot be joined directly to the school plant.

Albright stressed that acquisition of four classrooms would cover only the immediate bare necessities, and that he favored

construction of 6 or 8 classrooms to take care of needs the district will face immediately or shortly after such construction could be completed.

Construction of six classrooms would enable two of the three mobile classrooms to be phased out; and with eight classrooms, all three mobile rooms could be removed plus there would be one additional room available. Need for this room in the near future is probable, said Albright, since the population of the area seems to be growing. The school district picked up 60 new students this year in addition to the 57 students from St. Francis Xavier School.

Building Plans
Also strongly urged for consideration, was construction of a school library adjacent to the present Home Economics department. Such a facility could be used not only by all the students and teachers, but could be operated as a public library as well.

The entrance from the school could be closed to enable the library to be open for use even when school is not in session. The present school library is nonexistent, said Albright. This state of affairs has been pointed out for years by inspectors who come to certify the school, he pointed out.

James Jensen, architect for Gjelsteen and Seaborg Inc. of Menominee, presented tentative drawings for the various construction plans, including the library, the additional four, six, and eight classroom layouts. According to the plans, four classrooms could be added to the west wing of the elementary school by joining them to the north wall of the wing. The additional two or four classrooms could be constructed at the end of the west wing.

The library plans call for construction of the building in front of the school, immediately adjacent to the home economics room. Facilities would include stacks for books, seating capacity for 100, check out desk, storage area for audiovisual equipment.

To Meet Oct. 30
A public entrance to the library, including a ramp to accommodate the handicapped, would be built in addition to the entrance from the school.

The estimated price for construction was given by Jensen as \$132,451, classrooms \$104,443, 6 classrooms \$157,274, 8 classrooms \$210,104. The estimated cost of each plan includes allowances for architectural fees, construction, equipment (desks, etc.), plus a contingency fee to cover unforeseen expenses.

A question and answer period followed the presentation. At the conclusion of the discussion, Norman Kell called for a special meeting of the school board on Thursday, Oct. 30 at 7:30 in the Home Economics room to determine what action the board will recommend.

Before the meeting, Albright will attempt to obtain information on possible federal funds for constructing and equipping the library. All board meetings are open to the public and voters are urged to attend.

Meeting Asked Over 'Ambush' Of Four Yanks

SEOUL (AP) — The United States and South Korea requested a meeting of the Korean Armistice Commission Tuesday to protest the "murder" of four U.S. soldiers in an ambush Saturday by North Koreans.

North Korea has not yet responded to the request, a U.S. spokesman said.

The spokesman said the four soldiers were aboard a 1½-ton truck returning from a guard post inside the demilitarized zone.

The North Koreans ambushed the truck with grenades and small arms fire, the spokesman said, and the four Americans were found in the truck shot in the head.

A short time later, American patrols spotted four North Koreans fleeing back across the DMZ but lost contact after an exchange of fire, according to reports.

Housing Trend To Multi-Family Needs More Land

The trend in the housing industry appears to be toward more multi-family or apartment construction — and Escanaba has a zoning problem if it does not make enough land available for such development.

The problem was brought to the attention of the Planning Commission at a recent meeting when discussion centered on proposals to rezone approximately five acres along 18th Ave. S. east of Lincoln Road, from Class A residential to Class C to permit multiple dwelling construction.

William DeHaan, representing Art Goulais, owner of the property, told the Planning Commission that the request is being withdrawn because it was made prematurely.

The five acres is part of a total 40-acre property which is still under study for development and the entire 40 acres is being considered for a future plat, he said. In the near future, a portion of the 40 acres (located west of the Goulais Addition) will be platted into residential or similar type lot developments.

Two citizens of the area present at the meeting implied they would not like to see a multi-family development immediately adjacent to the Goulais plat; however, since there

Deer Cause Two Mishaps

Stray deer were the cause of two accidents over the weekend in Delta County, resulting in heavy damage to two cars.

According to State Police, an auto driven by Robert Louscher, 22, Rte. 1, Cornell, collided with a deer on County Rd. 434 in Baldwin Township at 8 p.m. Saturday night. The car was drivable, but heavily damaged. Louscher was uninjured.

A second crash was reported when Edward Hadel, 27, Perkins, struck and killed a deer with his car on County Rd. 529 in Maple Ridge Township at 8:45 p.m. Sunday. The front end of Hadel's vehicle was damaged. He was not hurt in the collision.

Tropical Storm Moving Slowly Toward Coast

NEW ORLEANS (AP) — Tropical storm Laurie whistled across the Gulf of Mexico today, aiming for Louisiana's vulnerable coastline. The Weather Bureau said the storm might become a hurricane.

Laurie developed from a depression off the Yucatan Peninsula and raced across nearly 250 miles of open gulf Sunday, its winds still below hurricane force at an estimated 50 miles per hour.

An Air Force reconnaissance plane reported after daybreak that the storm was still poorly organized and had moved very slowly with little change in intensity during the night.

At 8 a.m. CDT, Laurie was about 380 miles south-southeast of Lake Charles.

The Weather Bureau advised that "intensification is likely and Laurie may reach hurricane force" by early today.

The storm spun squalls extending 150 miles from its center and brought on a hurricane watch from Galveston, Tex., to Pensacola, Fla., all along that portion of the southern United States so often battered by Gulf tempests.

Humidity Top Problem For Undersea Crew

RIVIERA BEACH, Fla. (AP) — Four men who spent two days in the first self-contained undersea laboratory say it has great possibilities—but something will have to be done about the humidity.

The can-like "Hydro-Lab," 16 feet long and 8 feet in diameter, supplied its own electricity as it lay 50 feet below the surface of the Atlantic ocean a mile offshore.

Previous undersea habitats have received their electrical power from cables running down from the surface. This one relied on a fuel cell similar to the type used for power in the Apollo space flights.

Emerging from the 48-hour test Saturday, Dr. Larry Hallanger of Port Hueneme, Calif., said:

"The biggest problem was that it was like a sauna bath in there—a steaming jungle. The fuel cell worked fine, but they should have installed a dehumidifier or air conditioner."

The success of the experiment means that the Navy could now conceivably build an undersea station where men could watch for enemy submarine activity without having a surface platform or support ship above to tip off the enemy.

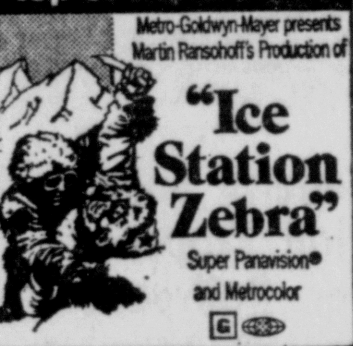

Briefly Told

Dennis Hohn of Rock reported to State Police that someone broke into the Northland Federation garage in Rock sometime Saturday night and took a large quantity of tools. Troopers have the matter under investigation.

Joe Rademaker of Ford River reported to State Police the larceny of a 10 H.P. Johnson motor from his boat in the Ford River.

U.S. Buildings In Japan Given More Protection

TOKYO (AP) — Police fortified government buildings and the U.S. Embassy in Tokyo today against massive anti-Vietnam war demonstrations which leftists say they will stage throughout Japan to coincide with "International Antiwar Day."

Some leftists say the demonstrations Tuesday will be the largest on record. They say public rallies will be held in 594 places throughout the country involving more than 96,000 demonstrators.

More people get more news from newspapers than all other sources combined.

Where You Work, in Your Parish Or Neighborhood

Milliken Gains Fame As Surprise 'Guest'

LANSING (AP)—Gov. William Milliken is fast gaining a reputation as the sort of fellow who drops in unannounced.

One of his most recent spur-of-the-moment visits occurred last week when he journeyed to Michigan State University to hear Dr. Walter Adams, acting president, deliver his stop-the-war address to the students and faculty on Moratorium Day.

Protests Now U-M Subject

ANN ARBOR, Mich. (AP)—Many critics of campus activists have charged that students these days are going to school to disrupt rather than learn.

But for a group of 12 University of Michigan upperclassmen, protest itself has become an academic subject. They are taking a course in how to organize successful protest movements.

The course, taught by psychology teaching fellow Maryann Hoff, 22, includes discussions on strategy for causing social change, ethical issues in violence and disruptive protest, the role of the leader, backlash and community reaction.

Engaging in protests is not part of the requirements for the students who take the course. "We couldn't conscientiously do that," Miss Hoff said. "We're not supporting radical activity. We're trying to analyze something that is relevant to these people today, teaching them to ask proper questions of themselves."

All 12 students in the course, however, are engaged in some form of protest, ranging from the women's liberation movement to a recently successful fight to win student-faculty control of a new university bookstore.

The course relies heavily on independent study by the students. There are outside readings, regular student-instructor conferences and monthly four-hour class discussions.

Students in the course receive two hours credit in psychology.

On Thursday, Milliken picked up the mobile phone in his auto and learned what time George Romney, secretary of housing and urban development, was due to arrive at Detroit's Metropolitan Airport.

Romney Greeted

The state trooper driving the governor's car slipped into Metro by the back way, cut through a parking lot, and Milliken arrived at the United Air Lines terminal just in time to greet Romney as he stepped off the plane from Washington.

In August, the governor stopped by an inner city police station in Detroit.

And he recently visited a State Police training session at the East Lansing headquarters.

These are only a few examples of the governor's unannounced visits.

Aides say the governor enjoys these sidetrips.

Even while working in his Lansing office, aides say, the governor frequently picks up his phone and makes two or three calls a day to various department heads.

This frequently startles and embarrasses unsuspecting secretaries who fail to recognize the voice on the other end of the line and ask who's calling.

Perhaps most surprised by Milliken's unannounced visits

are teen-agers at drive-in restaurants.

The governor dearly loves to grab a quick lunch at a drive-in while sitting in his long, black limousine. And many an unsuspecting couple has looked over to discover the state's chief executive eating a cheeseburger with everything and drinking a chocolate milkshake.

CRACKS IN AMCHITKA — Checking for radiation after the underground nuclear test on Amchitka, scientists find cracks like this one in the road caused by the blast.

DETROIT (AP)— Sheriff Roman Gribbs of Wayne County continues to hold an eight per cent lead over Richard H. Austin in the campaign for the Detroit mayoral election, reports The Detroit News Poll.

Results of the poll, reported in Sunday editions of the News, showed that 44 per cent of the city's voters favored Gribbs while 36 per cent endorsed Austin. Austin is a Wayne County auditor.

But the total percentages of both candidates slipped by two percentage points from an earlier poll, the paper reported.

The loss was made up among those listed as undecided, with undecided voters comprising 20 per cent, compared with the earlier 16 per cent.

The paper said the poll showed Austin, first Negro to win in a Detroit primary election for mayor, has increased "his share of the white vote from 15 to 16 per cent but has not moved to the 20 per cent figure that is estimated as a necessary minimum for victory. Gribbs continues to take three per cent of the black vote."

The News said that some 32,515 newly registered voters "may well be the key to the race, but it is impossible at this time to estimate how many are black or white."

DETROIT (AP)— Funeral services were held today in Detroit for the Rev. Hugo H. Hoenecke, 73, pastor of Paul the Apostle Evangelical Lutheran Church. Pastor Hoenecke, 73, died last Wednesday.

DETROIT (AP)— Apparently having dribbled away his last chance to remain a free man, one-time basketball star Reggie Harding has been ordered to prison for 2 to 2½ years as a probation violator.

"You have exhausted the resources and the patience of this court and of all the friends who have tried for several years to straighten out your life," Recorder's Judge Joseph A. Gillis told the seven-foot, 27-year-old Harding in ordering him to prison.

"This is the end of the line," Gillis added. "You have let us all down."

Probation for the former Detroit Pistons center resulted from guilty pleas to two burglary charges and a concealed weapons charge last July. Gillis said Harding failed to report to his probation officer and was implicated in another burglary last month.

Harding had pleaded for mercy in prior court appearances, contending a \$100-a-day narcotics habit had caused his crimes.

Judge Gillis warned Harding there are two more burglary cases pending against him, saying: "I think you had better concentrate on being a good convict because it's about the only way you have left of bidding for leniency from society."

Harding led Detroit Eastern (now Martin Luther King) High School to city basketball championships before being signed by the Pistons of the National Basketball Association in 1964 for what proved to be three troubled seasons, filled with suspensions and brushes with the law.

Despite a police record going back to a car theft conviction in 1959, Harding had managed to avoid prison. He had been placed on probation, fined or had the charges dropped.

WASHINGTON (AP)— The retirement of four more spy vessels by next June 30 will leave the Navy with just two noncombatant-type intelligence-gathering ships out of an original fleet of 10.

Only the Valdez and the Muller will remain once the Oxford, the Georgetown, the Jamestown and the Belmont are laid up. The Navy, in announcing the new economy move, said the latest savings will be \$43 million.

They are of the class of the Liberty ship which was shot up by the Israelis in the Mediterranean in 1967 and then retired. That incident and the North Korean seizure of the Pueblo, in January 1968, called into question the value of unarmed or lightly armed intelligence ships.

The intelligence jobs performed by these ships were mainly to intercept radio communications and monitor radar stations. The Pentagon decided these jobs could better be handled by reconnaissance aircraft and warships.

In all, 103 naval vessels are being laid up under the Pentagon's money-saving drive.

The new decision also includes disbanding seven Seabee battalions, releasing about 5,000 men from active duty, by mid-November. Their home bases are in Port Hueneme, Calif.; Davisville, R.I., and Gulfport, Miss.

DETROIT (AP)— Patrolman Earl Hamb of the Detroit Police Department has been named a member of the 10-man U.S. International Pistol Team. Hamb is the only non-serviceman chosen for the team which will compete against teams from Canada, Great Britain and Mexico.

CRACKS IN AMCHITKA — Checking for radiation after the underground nuclear test on Amchitka, scientists find cracks like this one in the road caused by the blast.

Reggie Harding Sent To Prison

DETROIT (AP)— Sheriff Roman Gribbs of Wayne County continues to hold an eight per cent lead over Richard H. Austin in the campaign for the Detroit mayoral election, reports The Detroit News Poll.

Results of the poll, reported in Sunday editions of the News, showed that 44 per cent of the city's voters favored Gribbs while 36 per cent endorsed Austin. Austin is a Wayne County auditor.

But the total percentages of both candidates slipped by two percentage points from an earlier poll, the paper reported.

The loss was made up among those listed as undecided, with undecided voters comprising 20 per cent, compared with the earlier 16 per cent.

The paper said the poll showed Austin, first Negro to win in a Detroit primary election for mayor, has increased "his share of the white vote from 15 to 16 per cent but has not moved to the 20 per cent figure that is estimated as a necessary minimum for victory. Gribbs continues to take three per cent of the black vote."

The News said that some 32,515 newly registered voters "may well be the key to the race, but it is impossible at this time to estimate how many are black or white."

DETROIT (AP)— Funeral services were held today in Detroit for the Rev. Hugo H. Hoenecke, 73, pastor of Paul the Apostle Evangelical Lutheran Church. Pastor Hoenecke, 73, died last Wednesday.

DETROIT (AP)— Apparently having dribbled away his last chance to remain a free man, one-time basketball star Reggie Harding has been ordered to prison for 2 to 2½ years as a probation violator.

"You have exhausted the resources and the patience of this court and of all the friends who have tried for several years to straighten out your life," Recorder's Judge Joseph A. Gillis told the seven-foot, 27-year-old Harding in ordering him to prison.

"This is the end of the line," Gillis added. "You have let us all down."

Probation for the former Detroit Pistons center resulted from guilty pleas to two burglary charges and a concealed weapons charge last July. Gillis said Harding failed to report to his probation officer and was implicated in another burglary last month.

Harding had pleaded for mercy in prior court appearances, contending a \$100-a-day narcotics habit had caused his crimes.

Judge Gillis warned Harding there are two more burglary cases pending against him, saying: "I think you had better concentrate on being a good convict because it's about the only way you have left of bidding for leniency from society."

Harding led Detroit Eastern (now Martin Luther King) High School to city basketball championships before being signed by the Pistons of the National Basketball Association in 1964 for what proved to be three troubled seasons, filled with suspensions and brushes with the law.

Despite a police record going back to a car theft conviction in 1959, Harding had managed to avoid prison. He had been placed on probation, fined or had the charges dropped.

WASHINGTON (AP)— The retirement of four more spy vessels by next June 30 will leave the Navy with just two noncombatant-type intelligence-gathering ships out of an original fleet of 10.

Only the Valdez and the Muller will remain once the Oxford, the Georgetown, the Jamestown and the Belmont are laid up. The Navy, in announcing the new economy move, said the latest savings will be \$43 million.

They are of the class of the Liberty ship which was shot up by the Israelis in the Mediterranean in 1967 and then retired. That incident and the North Korean seizure of the Pueblo, in January 1968, called into question the value of unarmed or lightly armed intelligence ships.

The intelligence jobs performed by these ships were mainly to intercept radio communications and monitor radar stations. The Pentagon decided these jobs could better be handled by reconnaissance aircraft and warships.

In all, 103 naval vessels are being laid up under the Pentagon's money-saving drive.

The new decision also includes disbanding seven Seabee battalions, releasing about 5,000 men from active duty, by mid-November. Their home bases are in Port Hueneme, Calif.; Davisville, R.I., and Gulfport, Miss.

DETROIT (AP)— Patrolman Earl Hamb of the Detroit Police Department has been named a member of the 10-man U.S. International Pistol Team. Hamb is the only non-serviceman chosen for the team which will compete against teams from Canada, Great Britain and Mexico.

DETROIT (AP)— Sheriff Roman Gribbs of Wayne County continues to hold an eight per cent lead over Richard H. Austin in the campaign for the Detroit mayoral election, reports The Detroit News Poll.

Tax Reform Bill On Medicare Set

WASHINGTON (AP)— The Senate Finance Committee has decided the tax reform bill may provide a cure for a billion-dollar-a-year abuse of the government health insurance programs.

A surprise provision inserted in the bill by the committee would require carriers of medicare and medicare to report to the federal government all payments to an individual doctor, nursing home, hospital and drug store exceeding \$600 a year.

Reports would be under the Social Security or tax number of the doctor or owner.

Senate hearings earlier this year showed abuses in medicare, health insurance for the aged, and in medicare, the companion program for the needy. Finance Chairman Russell B. Long, D-La., reported the abuses could run to a billion dollars annually.

Long said there is no way to figure the additional revenue which would be produced by the new provision but it would be a "great deal of money."

He said it would produce a savings to taxpayers through lower charges by doctors and nursing facilities. Currently, most of these fees are not open to routine federal scrutiny.

Another key revision by the Senate panel simplified and

changed the emphasis of provisions in the House version of the tax reform plan dealing with farm owners who use losses on the farm to offset or lower taxes on other income.

Opponents of the House plan maintained it would put a bookkeeping burden on bonafide farmers. Aides said the Senate version would not ask a taxpayer to keep records that go against him and would presume that a farmer making a profit in two out of five years was not in farming as a tax dodge.

Texas was the scene of the first known theatrical performance in North America. The play was a Spanish comedy performed near the site of present-day El Paso.

DETROIT (AP)— The Detroit News, in its Sunday edition, endorsed Wayne County Sheriff Roman Gribbs for mayor of Detroit.

The paper had endorsed both Gribbs and his opponent, Wayne County Auditor Richard Austin for the September primary.

In its editorial, the News said, "Austin brushes aside, while Gribbs emphasizes, the need for emergency treatment now to hold Detroit together while the reforms are accomplished."

The paper also favored Gribbs over Austin, a Negro, for his stand on law enforcement.

"Use whatever phrase you want," the editorial said, "... 'crime control' ... 'law and order' ... 'order and justice under law'—the need is obvious. Gribbs recognizes it and says so; Austin only belatedly admitted it."

QUESTION: What is happening on October 28th at 7:30 p. m. at the Escanaba Area High School auditorium?

ANSWER: A public hearing by the State of Michigan Air Pollution Board on the proposed Mead kraft sulphate mill and other air pollution problems.

More Taxes

If Michigan's Legislature approves new taxes this fall, taxpayers of Michigan need not feel alone. According to the Tax Foundation, Inc., of New York, N. Y., residents of 34 states already face higher tax bills as a result of 1969 legislation and those in several others — now including Michigan — may get socked.

"Enactment of new major taxes and increases in existing levies will add \$2.8 billion, or 7 per cent, to state revenues at current levels of economic activity," the foundation reports. "Still pending in several states is legislation which would add over \$850 million to the amounts approved to date, bringing the 1969 total to \$3.7 billion."

"The 1969 tax measures will produce a record annual gain in dollar amounts attributable to statutory action, topping previous highs of \$1.3 billion and \$2.5 billion in 1965 and 1967, respectively," the foundation continues. "These developments follow two successive years of extremely rapid increases in state tax collections, associated with economic growth, inflation and statutory action. Estimated state collections in fiscal 1969 were in excess of \$42 billion, almost one third higher than the \$32 billion collected just two years earlier, in fiscal 1967."

Gov. Milliken's proposals to finance the educational reform package include a five cent increase in the cigarette tax, effective Jan. 1, 1970, to provide an estimated \$18 million for the second half of the current fiscal year and an estimated \$45 million in fiscal 1970-71; elimination of the property tax credits on the state income tax due in April, 1971, yielding about \$116 million, and revisions in the state income tax. Accompanying the revisions would be a new, state-wide property tax which Gov. Milliken says would provide \$300 to \$400 million in property tax relief.

Here is what the Tax Foundation reports has happened in some other states:

Vermont became the 45th state to impose a general sales tax and North Carolina became the 50th state to levy a cigarette tax. If Washington legislation is approved by voters, it will become the 38th state to assess a personal income tax and the 44th state to pass a corporate income tax.

Illinois pushed through the biggest package, adding new taxes on individual and corporate income and boosting gasoline, cigarette and alcoholic beverage taxes a total of \$826 million, a 48 per cent gain over 1968 collections. Connecticut kicked its cigarette tax from eight to 16 cents a pack. Fifteen states boosted motor fuels taxes.

The Legislatures of all these states, of course, were convinced of the need to levy the new taxes. The stand-by argument is that the people are demanding more state services and to get them they must pay. Inflation has added to the necessity.

But with all the new taxes, one begins to wonder where it will end? Will government ever have enough money. When will the people run out of ability to pay?

There are already state and federal income taxes, taxes on entertainment, on sales on "luxury" items, on gasoline, on liquor and beer, on tobacco. In addition, there are local property taxes and in some instances local income taxes. The Social Security contribution also is a tax.

People, of course, are earning more and more money from year-to-year, but as taxes continue to be tacked on at all levels of government the percentage of income available to the individual continues to shrink. At the same time, the government continues to grow.

It's a little facetious, but if the trend continues, how many years will it be before the government instead of collecting taxes will find it easier to take the whole check and issue refunds?

Peninsula Potpourri

By action of the Gogebie Community College Board of Trustees, the lecture center of the new Gogebie Community College Campus was named the Jacob Solin Lecture Center to recognize the distinguished career of community college educator, Jacob Solin, who is presently the dean of academic programs. Solin served as Director of Gogebie Community College from 1952 to 1966 and last year was named dean of academic programs.

The claiming of a canoe, camping equipment and a supply of canned goods, found earlier this year in a remote section of the Porcupine Mountains State Park, has eliminated any possible connection between the campsite and a 20-year-old Madison, Wis., youth who has been missing for nearly two years. The Ontonagon County Sheriff's Department reported that John Corser, Land O'Lakes, Wis., finally claimed the equipment, but was unable to explain why he waited so long. It was found in February and for months there was speculation that Michael J. Larson, University of Wisconsin student missing since April 22, 1968, had been using the campsite. Larson has never been seen since he left his home, presumably to get a haircut. His small foreign car was found abandoned on a remote road in the park. Shortly after he was reported missing, Ontonagon authorities learned that he had withdrawn \$600 from a bank account at a Madison bank. Only other possible clue to his disappearance was the finding of a leg bone in a shoe by hunters in November, 1968. A state crime laboratory report only confirmed that the bone belonged to a white male over 17 years of age.

Annexation to the White Pine School District would solve many of the problems — especially financial — faced by the Bergland School District. That was the general feeling expressed by members of the Bergland Board of Education in discussion programs at the school, repairs to the building, purchases for sports and other extra-curricular activities. Superintendent George Osier was asked by board members to contact the White Pine superintendent regarding the present status of an annexation proposal and what the Bergland board could do to speed up the process.

RECKLESS DRIVING

A New Democracy Due For Panama?

By JOHN CHAMBERLAIN

PANAMA CITY, Panama—Brigadier General Omar Torrijos, the commandant of the Panamanian National Guard who is the strong man of this country's year-old revolution, recently spent a week-end with Gov. Nelson Rockefeller at the latter's family estate at Pocantico Hills, N. Y.

The two, to judge from the general's straight-forward manner of speaking, were, in the Latin word, simpatico. According to the grapevine, the Rockefeller recommendations to President Nixon have rejected arbitrary stances in favor of liberal ideology in inter-American policy. There have been 16 military coups in Latin America since 1961, which argues that the institution of democratic change is still a frail plant in most countries to the south of Mexico.

If the grapevine is correct, Rockefeller has told Nixon that the U. S. should pick and choose between military regimes, offering help—and even military weapons—to those whose ends seem honorable. General Torrijos' regime would presumably have Rockefeller's blessing.

In the case of Panama, Nixon is understandably on the spot. The U. S. stake in the Panama Canal dictates caution: we need a friendly government in Panama, yet we cannot afford to offend a majority of the people by supporting regimes that might come to consider their own perpetuation in power more important than allowing necessary changes.

The Torrijos government has, to date, been rather reassuring about its plans for consolidating what it calls "revolution without dictatorship." Torrijos, who says he would prefer to remain a soldier or to become a farmer rather than run for political office, sounds sincere when he says elections will be held when the chances for corruption have been diminished if not eradicated.

It would be presumptuous of a junketing journalist to offer a horoscope of Panama's future or to undertake a psychoanalysis of General Torrijos's character on the basis of a group interview. But of one thing we may be certain: the government which the General's National Guard overthrew on Oct. 11, 1968, was hardly a paragon of democratic rectitude. Its President, Arnulfo Arias, had one stock in trade, and that was to wave the banner of "Damn the Yankees." Torrijos insists that the people didn't vote for Arias, they voted against the United States, and the anti-U. S. forces won because they were in a better position to use corrupt methods at the polls.

If you buy this argument, it follows easily that Torrijos makes sense when he says that his "revolution" did not merely throw a man out after permitting him only 11 days in office. What it did do was to rid the country of an 11-day extension of 65 years of nominal democracy that wasn't really democratic.

In the case of Arnulfo Arias, one does not have to fall back on instant psychoanalysis to know something of his character. Arias had been President of Panama three times. Of the seven newspapers in the country, his family has owned five

of them (the Duque family has owned the other two).

Arnulfo Arias was educated in the U. S. (he holds degrees from the University of Chicago and Harvard), but, aside from his medical knowledge, the one thing he learned for sure in the U. S. was to hate North Americans. Back in 1939 he openly sided with the Nazis. There is the story, vouchered for by former Ambassador to Colombia Spruille Braden, that Arias was the intended

Period Of Gloom Lingered Ahead For Negroes: Bond

HILLSDALE (AP) — State Rep. Julian Bond of Georgia told a Hillsdale College audience Sunday night that black people in the United States are entering a second period of gloom and despair.

Bond, a Negro, likened the situation to the post-Reconstruction era and said its roots are much the same.

Bond said the despair can be blamed on institutionalized racism, repressive laws and what he described as the "illicit and adulterous political relationship entered into in Miami Beach in 1968." The latter referred to what some have charged was a "Southern strategy" devised by Republicans in the 1968 GOP National Convention in Florida. The so-called strategy reportedly called for ignoring the heavily Democratic votes in large northern cities.

Blue Collar Workers Lose Pay On Switch

WASHINGTON (AP) — A government report shows one out of every five blue collar workers is likely to cross the job color line into a white collar position — many of them taking at least a short-term pay cut.

But most workers who make the shift from production jobs to management, professional, technical, clerical or sales positions figure the switch is worth

John Vogel will leave this morning for Crystal Falls, where he will spend the day with friends and relatives.

The Escanaba Women's club will entertain teachers of the Escanaba schools at a reception and card party Saturday. The affair will start at 2:30 and all members of the Women's club are invited to attend.

beneficiary of a Nazi plot to use Scatda, the German-run airline in Latin America, to bomb the locks of the Panama Canal and to set up a Nazi protectorate in the Caribbean region.

Arias would have been the gauleiter for the Nazi New World tropical empire, which may be taken as having provided a blueprint for Fidel Castro, who, if he had been able to get away with it, would have become gauleiter (or commissar) for a Soviet Caribbean protectorate. Luckily, the U. S. Office of Naval Intelligence got wind of the Nazi plot. Arias was deported for the first time and sought refuge in Venezuela and Argentina.

In Arias's most recent term in office—the 11 days of Oct. 1968 — the Panama National Guard became fearful of the man's moves to create his own presidential military guard. Personal armies are not exactly compatible with democracy, as the histories of Trujillo's Dominican Republic and "Papa Doc" Duvalier's Haiti have demonstrated.

So the ouster—the "revolution"—followed.

It remains to be seen whether the Torrijos revolution becomes the father of a new democracy devoted to the preservation of good revolutionary institutions in the Simon Bolivar-George Washington tradition. But Nixon may be sure that he need weep no tears for the downfall of the Arias type of democracy. It could be that Nelson Rockefeller told him just that.

Blue Collar Workers Lose Pay On Switch

WASHINGTON (AP) — A government report shows one out of every five blue collar workers is likely to cross the job color line into a white collar position — many of them taking at least a short-term pay cut.

But most workers who make the shift from production jobs to management, professional, technical, clerical or sales positions figure the switch is worth

it in the long run, the report says. "Most respondents were convinced that their socioeconomic status had risen above that of their parents and above the current status of most of their childhood friends," said the survey of 432 workers.

The report was published today in the Labor Department's Monthly Labor Review. It said job switching is largely haphazard, and urged government employment agencies, employers and unions to make it easier for workers to climb up the job ladder.

The study by University of Wisconsin economic professors David B. Johnson and James L. Stern said 39 per cent of blue collar workers making the switch moved into managerial jobs and increased their base pay by nearly 15 per cent.

But, it added, "Men shifting into professional-technical jobs suffered an average loss of weekly gross income of 5.7 per cent. In terms of base pay without overtime, however, the loss was only 2.7 per cent."

Blue collar workers shifting to clerical jobs lost 9.8 per cent in gross pay, 6.3 per cent when lost overtime was excluded. The workers interviewed gave many reasons for wanting to make the job switch. "Very prominent among them were reasons related to an improved financial situation resulting from steadier work in the white collar job, higher fringe benefits, and prospects for better long-run earning opportunities," the report said.

The bidding:

North East South West
1 ♣ Pass 1 ♣ Pass
2 ♣ Pass 2 ♣ Pass
2 ♣ Pass 4 ♣

Opening lead—two of spades. This was Board No. 1 in the U. S.-Germany match during the World Bridge Olympiad played in New York in 1964. The American team gained 780 points—13 international match points—on the opening deal of the 18-board match and the German team never recovered from this blow, eventually losing 56 imps to 20.

Nothing much happened at the first table, where the U. S. North-South pair, Jordan and Robinson got to four spades on the bidding shown. The German West led a trump and Robinson made twelve tricks when it turned out that West had the king of clubs.

But at the second table there were fireworks. With Ramensee North for Germany and Denek South, the bidding went:

Denek evidently valued his hand much more highly than Robinson. He thought there might be a slam if North had two aces, and he therefore used Blackwood. When Ramensee showed only one ace, Denek had to quit at five spades.

But the bidding was not yet over. After two passes, Krauss, the U. S. East, doubled. This double, with an apparently trickless hand, produced a windfall of sizable proportions.

Hamman, West, holding two aces and a king, recognized the double as lead-directing. He realized that Krauss was doubling not on high cards but on distribution. The double called for an unusual lead and Hamman had no trouble reading it. He led a club.

Declarer finessed, but East ruffed and returned a heart. West took the ace, cashed the ace of diamonds, and played another club which East ruffed. So declarer went down two—300 points—and the Americans were off to a flying start. © King Features Syndicate

'Ramrodding' Charged In MSU Choice

EAST LANSING (AP)—Accusations of "ramrodding" accompanied the recent selection of Dr. Clifton R. Wharton Jr. as the 14th president of Michigan State University.

Trustee Clair White, one of three Democrats who voted against the appointment, said he had sent a telegram to former MSU President John A. Hannah "congratulating him for pulling this off."

White noted that Hannah—now director of the Agency for International Development—was "close to Nelson Rockefeller." Wharton works for the Agricultural Development Council, Inc., an organization formed by John D. Rockefeller.

"The segments (Hannah) represents were much afraid they would lose control of the school of agriculture and county agent system," White charged.

White and fellow Democrats Frank Hartman and Warren Huff tried to at least postpone Wharton's appointment to allow them time for "further evaluating his qualifications."

"I have met Wharton only once," Hartman said, "for four hours in New York City. I would like the pleasure of meeting him again a second or a third time. I do not think it appropriate for this board, having interviewed him only once, to act now," he said.

When a majority of the eight-member board failed to support his suggestion, Hartman talked of "ramrodding." Those refusing Hartman's request denied the allegations.

Woman Cited

DETROIT (AP) — Paulette Whitworth, a Nashville, Tenn., banking consultant, has been named "American Business Woman of the Year" by the American Business Women's Association.

She was chosen as the association met in Detroit during the weekend for its 20th annual national convention.

Ann Landers

Shoplifting 'Mama' Doesn't Know Better

Dear Ann Landers: My wife's mother is a chronic shoplifter. It is a known fact in our family that she stole the statuette on the coffee table from Sears and the lamp from Montgomery Ward. Last year she walked out of Polk Brothers with a new vacuum cleaner.

My wife and her sister do not shoplift but they see nothing wrong in Mama's shoplifting. Last year my mother-in-law asked my wife and her sister what they wanted for Christmas. They both wanted automatic electric toasters, so Mama went out and stole a couple.

I got mad over this and we had a big argument. My wife explained that her mother was raised during the depression when nobody had any money. Whatever people wanted they stole. She never got out of the habit. My wife insists that since it was part of her early training it is not immoral. Please comment.—Losing The Debate

Dear L. D.: Your mother-in-law is not immoral. She is amoral. This means she has no conscience, no concern for right or wrong. If she is caught she will not be invited to debate ethics or talk about the depression. She will be booked like any other thief. Your wife, by accepting gifts which she knows are stolen, condones her mother's criminal behavior. You must not allow it.

★ ★ ★

Dear Ann Landers: For generations our family has collected Americana. I inherited from my great-grandmother an American flag with the regulation stripe design but the stars form the letters U. S. A. Since there are 48 stars in this flag it must have been made after 1912. It is of good quality cotton and machine sewn, so there must be others.

We've checked with the Smithsonian Institution and various flag books but have been unable to learn the origin of this flag. Can you or your readers help us? —Flagged Down In Kansas City

Dear F. D.: The fact that the flag is machine sewn is not evidence that there are others. It is possible that one of your ancestors whipped up that flag on her own sewing machine for a 4th of July picnic in Salina.

If any reader has a better version, please let me know.

★ ★ ★

Dear Ann Landers: My son is in his late 20's. When Boyd was 19 he was to be married but his fiancée was killed in an accident three days before the wedding. He never got over it.

Boyd has cut himself off from all his old friends. He has a good job and makes a nice living but he's like a different person. Yesterday Boyd told me he is taking a larger apartment because he needs more room. An 18-year-old

boy is moving in with him. I'm sure Boyd is sick but nobody can talk to him. The high school lad has turned against his parents and refuses to listen to them. He has no idea what he's getting himself into. Ann. Can my son be arrested? I am worried sick.—Ill In Illinois

Dear Ill: You say the boy has no idea what he's getting into. I'm not so sure. In Illinois, homosexual activity between two consenting adults is no longer a crime. Since the boy is 18 he is an adult. Moving in, of his own free will, is tantamount to "consent."

Power Failure

PETOSKEY (AP) — A power failure on a main line Sunday cut off electricity for 1½ hours to Petoskey and the nearby town of Charlevoix, Consumers Power Co. officials said.

Combined population of the two cities is 8,900. Petoskey officials said an emergency city generator was activated during the shortage. The generator was capable of serving about one-third of Petoskey's electricity requirements.

The Star-Spangled Banner was designated the National Anthem by an Act of Congress on March 3, 1931.

Coho Success

"COHO FEVER," says Bob Branam of Bay View, owner of Bob's Sport Shop on U. S. 2 and 41 between Escanaba and Gladstone, "is a little bit like buck fever — once you get it, it's hard to get rid of it." Branam, who said he spent 66 hours fishing coho salmon this fall without noticeable success, hit it big Sunday in the Whitefish River, landing these four cohos weighing a total of 60 pounds. The fish, each about 32 inches long, were taken from the Whitefish in a hole just below where Bill's Creek empties into the main river. Standing in the river with waders, Branam said it took him about 15 minutes each to net the salmon with spinning tackle and 15-pound test line. He was using a medium-sized red and white spoon as a lure. "Anything red and white or fluorescent red is good," he said. "It was just great," he continued. "I've been fishing a long time, but I've never run into anything like that before." (Daily Press Photo)

Coho Fishing Reported Poor

Surveys conducted over the weekend on the Whitefish River, Whitefish Bay, Little Bay de Noc and Thompson Bay show angler success low.

Dave Johnson, fish biologist for the DNR, conducted a personal survey this weekend that showed 56 fishermen caught 8 coho. This survey was conducted at the Rapid River access near Whitefish Bay.

DNR surveys conducted over the weekend by resort owners show 34 fishermen surveyed caught 9 coho in Little Bay de Noc, Whitefish Bay and the Whitefish River.

At Thompson the fish are few and far between. A survey conducted Sunday showed that 14 anglers caught four coho. Most of the fish being caught are not in prime condition.

Garden Peninsula

Mrs. Mary Ann Tatow has returned to her home here after spending five weeks with her daughter and family, Mr. and Mrs. Irvin Thennis in Gladstone.

Mrs. Mildred Haas is a medical patient in the Schoolcraft Memorial Hospital in room 32A. Grady Steele has returned to his home in Clarkston after visiting at the Louis Farley home for a week.

St. Anthony Circle will meet at the Louis Farley home Tuesday evening.

Richard Spaulding has returned to his employment aboard the Nichole after spending a day with his parents, Mr. and Mrs. Grover Spaulding of Kates Bay.

Weekend visitors at the Fred Sharp home in Kates Bay were their daughter and husband, Mr. and Mrs. Robert Brown of Caledonia Ill., and the Sharps' niece and husband, Mr. and Mrs. Leon Kee of Toronto Canada.

The public is invited to meet Rep. Charles Varnum at St. John's Hall, Thursday morning, Oct. 23 at 8:30 a.m. at a non-partisan breakfast.

A pink and blue shower honoring Mrs. Rodney Lucas was held Thursday evening at St. John's Hall in Garden. The table was centered with a large cake. The shower was given by friends.

Use of plastic bags for packaging of industrial chemicals, lawn and garden products and oily and roughedged materials is expected to increase five per cent over the 1968 volume of 105 million bags, according to John P. Sullivan, sales manager for U.S.I. Chemicals Film Products.

2 East German Hijackers Gain Asylum In West

BERLIN (AP) — Two East German hijackers were granted asylum in West Germany Sunday, and the Polish airliner they commandeered at gunpoint returned to the eastern zone with its other 63 passengers and nine crewmen.

The two men, described only as being in their early 20s, stepped from the plane at Tegel Field, in the French sector of Berlin, seconds after landing and said they were defecting. One had a pistol in his hand.

Witnesses at the field said two Communist MIGs shadowed the Lot Airlines plane, a four-engine Ilyushin 18, as it made its approach but "it landed anyway," a policeman said.

A U.S. Air Force spokesman said airmen in the Tegel control center had no idea that the plane was about to land.

"He came out of nowhere," the spokesman said, "then he just landed. There was no voice communications with him. He flew a very irregular pattern."

The flight originated at Warsaw, was scheduled to stop in East Berlin and then Brussels.

The plane stayed three hours in West Berlin, then flew to East Berlin's Schenefeld Airport.

At the Berlin Wall, another East German escaped by climbing the 10-foot barrier as East German border guards fired at him with machine pistols.

Mrs. Pirlot Dies Today

Mrs. Amelia Pirlot, 84, 606 S. 19th St., Escanaba, died this morning at the Medicenter in Escanaba, following a lengthy illness.

Mrs. Pirlot was born Jan. 26, 1885 in Champion, Mich. She had spent most of her life in the Delta County area.

She is survived by one son, Maurice of Escanaba, and one daughter, Louise Asp of Milwaukee, Wis., four grandchildren and nine great-grandchildren.

There is also one sister, Lou Arndt, of Detroit and two brothers, Clement Rivard, Escanaba and William Rivard of Iron River.

Friends may call at the Allo Funeral Home Tuesday at 4 p.m.

Funeral services will be held at St. Joseph's Church Wednesday morning at 9 a.m.

Burial will be in the Holy Cross Cemetery.

Increase Noted In War Deaths

SAIGON (AP) — Fighting increased sharply in the past 24 hours in Vietnam, with 197 enemy troops reported killed, but a U.S. spokesman said activity "is still at a relatively low level."

Seven Americans and six South Vietnamese were reported killed in seven clashes scattered across the country from the Mekong Delta to the coastal lowlands south of Da Nang. Sixteen Americans and 21 South Vietnamese were reported wounded.

The heaviest fighting raged deep in the Mekong Delta 142 miles southwest of Saigon. There, 400 South Vietnamese troops supported by American helicopter gunships reported killing 96 Viet Cong. It was the biggest battle of the year for the South Vietnamese.

The South Vietnamese said six of their men were killed and 16 wounded in the five-hour fight in the U Minh Forest, a swampy area of tall trees and undergrowth used by the Viet Cong as a major military base.

An American AH1 Cobra helicopter gunship was shot down and destroyed during the fighting and one crewman was wounded. Another U.S. helicopter was shot down and destroyed 30 miles northwest of Saigon, and again one American was wounded.

North Vietnamese troops bombarded a 50-man U.S.-South Vietnamese platoon with mortars before dawn Sunday 63 miles southeast of Da Nang, then attacked with rifles and rocket grenades. Five Americans were killed and five wounded out of the 14-man Marine squad in the platoon. Three government militiamen were wounded, and at least four of the enemy were reported killed.

Trenary

Mrs. Betty Cayer is a patient at the Munising Memorial Hospital.

Mrs. C. C. Clausen has been a patient in the Munising Memorial Hospital.

Halloween Dance
There will be a Halloween Dance at the Trenary School Friday, Oct. 24.

The young people of the United Methodist Church will collect for UNICEF Sunday evening, Oct. 26.

Food Stamp Days will be held Nov. 5, 19.

Christmas Bazaar
The Women's Society of Christen Service of the United Methodist Church will have a Christmas Bazaar Nov. 8 at the church.

Border Confab Success Lags

MOSCOW (AP) — Conflicting Soviet statements raised the prospect of no progress in the border talks with China starting in Peking today.

Soviet First Deputy Foreign Minister Vasily V. Kuznetsov arrived in Peking Sunday and said, "We hope the talks will be fruitful and will benefit our countries and peoples."

But in Moscow, Mikhail Suslov, top ideologist and member of the Communist party's 11-man politburo, accused the Chinese leaders of an "adventuristic, chauvinistic policy."

Kuznetsov's remarks in Peking and excerpts from Suslov's article in the party journal Kommunist were distributed Sunday by Tass, the official Soviet news agency. It did not report any remarks by Communist China's Deputy Foreign Minister, Chiao Kuan-hua, who welcomed the Soviet delegation to Peking.

Negotiations to settle disputes over the long border between China and Soviet Siberia were broken off more than five years ago. The situation became tense last spring when shooting broke out at several points.

Premier Alexei N. Kosygin made a surprise visit to Peking Sept. 11 and met with Premier Chou En-lai. Nearly a month later China announced agreement to open talks.

Tass quoted Kuznetsov as saying the talks would involve "questions of interests to both sides." Some saw this as an indication that more than border issues might be discussed.

British Isles Hit By Strikes

LONDON (AP) — Strikes in public transport, the coal mines and the automobile industry hit Britain today.

Guards on the subway pulled a lightning one-day strike which tossed several million commuters onto buses and taxis but mostly onto the streets and a highly unaccustomed walk to work.

The guards are demanding mileage bonuses equal to that given the motormen.

Coal miners completely shut down Yorkshire's 70,000-man collieries, some in other parts of England, Scotland and Wales.

They overruled their own union's agreement with the National Coal Board and pledged to stay off the job until their complete demands are met.

Vic Feather, Trade Union Congress general secretary, moved into another punishing strike in the automobile industry by convening the principals in the seven-week-old Standard Triumph walkout at Liverpool. It has thrown 30,000 workers off the job and cost the firm \$16.8 million in lost sales.

German Political Party Weakening?

BONN (AP) — Kurt Georg Kiesinger's imminent fall from power sounds an ominous note for his Christian Democratic party. Observers are asking whether the Catholic party which led West Germany from the ruin of war to wealth in two decades can survive out of office.

Adenauer's cabinets always contained a 3-1 majority of Catholics, but the practice was discarded after his resignation in 1963.

More than 80 per cent of the Christian Democratic party's members are Catholics. But an increasing number of Catholics apparently feel less committed to vote for a "Christian" party, and there has been an influx of Catholics into Brandt's party in recent months.

Protestants outnumber Catholics 51 to 44 per cent in West Germany.

May Lose Support
The Christian Democrats also may lose support among the small businessmen, white collar workers, merchants and farmers who make up 40 per cent of the party's 380,000 members. Brandt's coalition promises to take more account of their interests in deference to the liberal Free Democrats, who draw many of their members from that sector of society.

Fighting has begun among the Christian Democrats, and there is talk of an attempt to replace Kiesinger as party leader.

The sun, the controlling body of our solar system, is a star whose dimensions cause it to be classified among stars as average in size, temperature and brightness.

The September election un-

Czechs Will Be Accorded Big Soviet Welcome

MOSCOW (AP) — The Kremlin prepared a big welcome today for leaders of Czechoslovakia's Communist party and government in a show of approval for their recent purge of liberal Communists.

Communist party chief Gustav Husak, who replaced liberal reformer Alexander Dubcek last spring under Soviet pressure, and President Ludvik Svoboda were scheduled to spend nine days meeting top Soviet leaders and touring the country.

Prague Radio said the talks would be climaxed by the signing of a "new document of basic political importance." This aroused speculation that some of the Soviet occupation troops in Czechoslovakia might be withdrawn, but observers said it was more likely Moscow would grant economic concessions, possibly a long-delayed loan.

Israeli Vessel Reportedly Has Bomb Aboard

LONDON (AP) — Police and customs officials in all British ports have orders to search all arriving Israeli ships. The orders came from the London Port Authority, which said it learned an Israeli ship headed for Britain might be carrying a bomb planted by an Arab.

The name of the ship was not announced. Officials said Scotland Yard relayed the bomb warning after receiving a tip from Israeli intelligence.

Nobel Peace Prize Given To Labor Unit

OSLO, Norway (AP) — The Nobel Peace Prize was awarded today to the International Labor Organization (ILO), the Nobel committee announced.

The prize this year is worth \$72,700.

The ILO was one of 45 candidates proposed to the Nobel committee, composed of members of the Norwegian Storting (parliament).

The Geneva-based ILO was founded in 1919 as part of the Versailles peace treaty ending World War I.

"Its purpose was declared to be to improve working conditions in various countries in order to create more stable social conditions and thereby contribute to safeguarding world peace," the Nobel committee's announcement said.

NEW CURRICULUM

MINNEAPOLIS (AP)—After a 10-year, multi-million-dollar project of writing, editing and publishing, the American Lutheran Church has completed an entirely new curriculum of parish education for its 4,906 congregations.

The newly readied courses, to go into use this fall, cover levels from pre-school children to adults.

Draft Lottery Seen Bringing Out Talent

WASHINGTON (AP) — President Nixon's draft lottery system—if it passes Congress—is sure to bring out a talent among the country's 18-year-olds for figuring mathematical probabilities.

Critics say the plan will leave most young men guessing about just when they might be called the following year and their chances for escaping the draft entirely.

Guessing Game?
But armed with a few basic figures those guesses can get pretty close. And some men won't have to guess at all.

The plan for drafting 19-year-olds first on a lottery basis is likely to pass the House late this week. It is still an open question in the Senate.

The 365 birthdates for the fol-

lowing year would be drawn out of a fish bowl at a public lottery in late September or early October each year.

First To Go
There's little guesswork for able-bodied men whose 19th birthdays fall on the first dates drawn: they'll be among the first men called early the next year.

And men with birthdays on the last 150 or more dates drawn will likely escape the draft entirely.

Everybody else will have to take out his scratchpad and pencil and start figuring the odds on the basis of the number of men in the draft pool and the rate at which they're being called up each month.

If the system were in effect now, as Selective Service offi-

cials explain it, 18-year-olds would figure there would be something like 600,000 available for the draft next year after rejects and deferments.

Lower Draft Calls
Draft calls hopefully will drop off to something like 200,000 from this year's 300,000 plus.

That would mean men with birthdays on the last 200 or so dates drawn in the lottery would likely escape the draft and those with the first 100 birthdates drawn would probably be called. The remaining 65 birthdates would be borderline cases.

The callups vary from month to month but a man who drew the 100th date could figure he'd be called near the end of the year, a man who drew 50 would probably be called about mid-year.

Students and technical people getting deferments would draw their draft eligibility placement for their 19th years like everyone else and would come back into the draft pool with that same placement when their deferments ended four years later.

All this is how the lottery system is to work when it is well established.

The first year, however, would be a transitory one in which all men between 19 and 25, not just 19-year-olds, would be subject to the draft under the system.

LIFELAND BACHELOR ACQUIRES A FAMILY — Eleven of Mrs. Daniel M. O'Neill's 12 children are present as she and Joseph Patrick Walsh, a lifelong bachelor, are married in Brookline, Mass. The children range in age from 20 to 38, and there are 48 grandchildren.

Claims Protest Gave Incentive To North Vietnam

WASHINGTON (AP) — Deputy Secretary of Defense David R. Packard, in one of the strongest administration denunciations of antiwar demonstrations, says the recent moratorium day activity gave North Vietnam the incentive to continue stalling in the Paris peace talks.

The No. 2 man at the Pentagon, in comments recently to a group of leaders of nongovernmental agencies from throughout the nation, said Hanoi views the showing of dissent last Wednesday as a repudiation of President Nixon's policy.

Packard suggested that critics of the President's policy "weigh the effects of their words at home as well as around the world."

MANISTIQUE

CONGRESSMAN Philip Ruppe (R-Houghton) was in Manistique Saturday to attend ground-breaking ceremonies on the site of the new \$517,000 low-income family housing project. Pictured at the ceremonies with Ruppe, right, is City Manager Robert Noe, left, and Councilman A. J. Cayia Jr. After the ceremonies, Ruppe toured the nearly completed Senior Citizens housing project with city officials. (Daily Press Photo)

County To Vote On New Probate Court Program

Schoolcraft County voters will be balloting Nov. 4 to decide if a two-county probate court should replace the present single County Court. Under provisions of a bill signed by Gov. Williams G. Milliken last August, Schoolcraft and Alger counties would join for a single probate court, assuming the question is approved by a majority vote in both counties.

3 Counties Exempt
The issue will affect 12 counties in the Upper Peninsula which would form six multiple courts. Only Delta, Marquette and Chippewa counties, because of their population are exempt from the question.

Salane Quoted
Schoolcraft County Judge of Probate John S. Faketty has issued the following statement on the proposed two-county Probate Court:

"The proposed new court is silent in many areas except

salaries. All the probate judges, whether in single or multiple courts, will receive an annual salary of \$20,000, 75 per cent of this is to be paid by the State of Michigan and 25 per cent to be paid by the affected counties, with an allowable maximum supplement of \$9,000 to be paid by the counties. In other words, a Judge could receive \$15,000 from the State, and \$14,000 from the counties. The first impression will seem most attractive from a taxpayers point of view. However, this is somewhat misleading as was our present district court, which we found to be very expensive.

"The bill makes no reference to the administration or personnel of the probate court. It must be assumed that each county will have a probate court with the probate register given additional administrative authority, and a recording secretary will be added to the per-

sonnel with salaries comparable to what the present probate judge is receiving.

Intent Of Bill
"The intent of the bill is obvious. The advocates claim that the bill will uplift the quality of the probate courts. The fact is that lawyers have not been interested in seeking the office in small populated counties. The present salaries range from \$6,500 to \$29,000, depending on the population of the county. Schoolcraft County provides a salary to the probate judge in the amount of \$8,200. \$3,250 is paid by the State and \$4,950 is paid by the County.

"The lawyer-probate judge in small populated counties may practice his profession privately. However, under the proposed district probate court, he, the lawyer-judge, will be prohibited from practicing law.

"Even though the non-lawyer-judge may seek re-election to the office under the proposed district probate court, it is doubtful, in the opinion of the present Schoolcraft County Probate Judge, that the best interests of the people will be served by the establishment of a district probate court. It would appear that both the probate and Juvenile Code will need revision in some areas, especially since the judge will require time for travel (with additional cost to the counties). The present juvenile code provides that when a youngster is found violating the law, he, or she, shall be brought forthwith before the probate judge. In the case of the mentally ill, the court must act quickly in getting the best treatment available for these unfortunate people. The judge cannot wait until the next day or the day after to do that which must be done today.

Social Aspect Out
"The probate judge will not have time for informal discussions on social and/or other problems. The social aspect, for which the probate court has long been known, will be out. "There may be those who will believe that a lawyer-probate judge will afford them free legal services. This will not be possible for the same reason that he is prohibited to give legal advice, free or fee, under the present court. A judge giving legal services on matters before his Court would be disqualified from hearing the case. "There may be those who will believe that the delinquency problems will be lessened in counties with a lawyer-judge. There are only approximately twelve non-lawyer probate judges in Michigan, and, according to a recent survey, the delinquency problem is not greater in those counties.

Term Nears End
"The present Schoolcraft County Probate Judge has been in office for seventeen years with one more year remaining to his term in office. Salaries proposed under the new district court are appealing. However, I do not feel that the proposed court will serve the best interest of the people. Therefore, I am hopeful that the qualified voters of Schoolcraft County will turn out at the polls on Nov. 4 and cast their votes against the formation of a district probate court."

Ruppe Officiates At Ground-Breaking

Con. Phil Ruppe (R-Houghton) was in Manistique Saturday for a busy round of activities.

Ruppe officiated at ground-breaking ceremonies for Manistique's \$517,000 low-income family housing project on N. Maple St. which attracted a good representation of city and county officials.

City Manager Robert Noe was master of ceremonies at the 2 p.m. ground-breaking and introduced the congressman "who was instrumental in Manistique securing this gift from the federal government." Rev. Theodore Doane, pastor of the First United Methodist Church, offered the invocation. The City Housing Commission was official host at the ceremony.

Immediately after, Ruppe toured the Senior Citizens Housing Project with architect Lou Barone as tour guide. The Green Bay firm of Nichols and Barone designed the three-story structure on the lakeshore which is almost ready for occupancy.

Ruppe was a guest at a gathering at the home of City Manager and Mrs. Noe before leaving for a Republican fund-raising reception at the Surf. About 170 persons attended the event. Other party officials honored at the six to eight o'clock affair included Rep. Charles Varnum of Manistique, Murle Edinger of Traverse City, 11th District liaison man, Mr. and Mrs. Lin-

coln Frazier of Marquette (he being the 11th District chairman of Republican State Central Committee) and Jack Frost, a Ruppe assistant.

Mr. and Mrs. John Moffat and Harold Cockram were in charge of the reception arrangements.

Top Officials To Keep Step In Pay Hikes

If teachers' salaries in the Manistique Area Schools increase next year, administrative salaries will also increase, area board of education trustee Robert Knoph has pointed out.

The administrative salaries would increase according to an index the board used in establishing a ratio between the top teaching salary and administrative salaries.

The teachers are in the second year of a three year contract with monetary provisions open for negotiation each year. Should the top teaching salary be increased, administrative salaries would be raised to maintain the ratio according to the index.

Increase for the administrative staff — superintendent, high school principal, Community School director, business manager, building and grounds director and office coordinator — were approved by a 4-3 vote at the Oct. 13 meeting of the area board of education. The index system was used for all schedules except the building and grounds director and office coordinator.

The index uses an arbitrary percentage figure which when multiplied by the top employee salary, produces a ratio between employee-supervisor. The indexes range from 1.35 to 1.7 per cent.

The administrative contracts are for a three year period — July 1, 1969 to June 30, 1970 — but do not, as Knoph pointed out, define a stationary salary schedule.

Area Board of Education President Denton Nelson said he felt the increases granted would save haggling in the future and will bring the administrative salaries to a fairer proportion in relation to teaching salaries. The increases total \$11,862.

Legion Women Vote Donations

The American Legion Auxiliary met recently for its annual membership dinner. In a meeting following the dinner, the group voted donations to the Camille Disaster Fund, VA Hospital in Battle Creek, American Legion Children's Home and Radio Free Europe.

It was announced that Christmas gifts for veterans at the VA Hospital in Iron Mountain may be sent to Mrs. Fred Hahne, rehabilitation chairman, or Mrs. Marvin Mercier. Gifts will be mailed Nov. 16.

Mrs. Mercier reported on the membership drive; Mrs. Wallace Peck on fund-raising activities. A White Elephant Sale was held.

Game awards went to Mrs. Clara Whitman and Mrs. Peck. The auxiliary will meet again on Nov. 12.

Community School Plan Here Praised

The Manistique Community School hosted three visitors from the western United States last week. The men were among a group serving a six week internship in community education at Northern Michigan University, sponsored by the Mott Foundation.

William Johnson, an elementary school principal from Tucson, Ariz., Tom McCarthy, Community School coordinator from Phoenix, Ariz., and John Rothe, Community School director from Gallup, N.M. were all enthusiastic about the Manistique Community School program.

During their two-day visit the three men were guests at the monthly Community School luncheon meeting, visited the

new Lakeside School, attended the House Taxation Hearing on educational reform at the court house, attended the City Recreation Commission meeting, visited the Senior Citizens Service Center and interviewed school administration personnel and Rev. Charles Swinehart of St. Alban's Church. Community School director Richard Bonifas was host to the group.

The Community School program will be a pilot program, Tucson elementary principal Johnson explained. He will be working with a new Community School director to help involve the parents in the life of the school, he said, help the school improve its image and become regarded as a good thing. His school's enrollment of 515 pupils is predominately Mexican-American and about half of the first graders who enroll do not speak English, Johnson said. His school serves a highly urban area with boundaries extending only several blocks in each direction.

McCarthy will be coordinating several Community School programs in Phoenix whose financial backing will depend on grants and public support. There is no financial aid for the Community School in Arizona as there is in Michigan, he said.

Rothe's district in Gallup involves a substantial population of Navajo Indians with the resulting language problem, he said.

In lauding the local Community School program, Johnson said "you are doing a tremendous job of involving the community in the school . . . and your tremendous investment in school facilities is being used for the benefit of the community. I think it's great."

Plans Under Way For Sports Show

Plans to set up a Sport Show on Nov. 8 will be made during a special dutch-treat breakfast meeting at the Surf Tuesday morning at 8.

Any area businessman who wishes to display merchandise—sporting goods, sportwear, snowmobiles, automobiles, etc.—at the Sport Show is invited to attend the breakfast meeting.

The event is co-sponsored by the Manistique Community School and the Top O'Lake Chamber of Commerce.

Shot To Death

DETROIT (AP)—Police said Raymond Fernandez, 26, of Roseville was found shot to death Sunday in his convertible parked in a vacant lot in Detroit's inner city. Officers said nearby residents reported hearing shots about 5 a.m. and seeing a man and woman run from the car but the residents did not report the disturbance. Fernandez was found several hours later.

Detroit Blaze

DETROIT (AP)—Fire, fed by large amounts of magnesium, destroyed a factory of the U.S. Zinc Smelting and Refining Co. Sunday in Detroit.

Officials said 75 firemen using 25 pieces of equipment fought the three-alarm blaze for five hours before extinguishing it. Loss was not immediately estimated and the cause of the blaze was under investigation.

Louise Linder's piggyness exposed in neighborhood pet store.

Louise and her toy poodle Lola merely went in to browse. The browsing turned into buying; the buying turned into a spree.

Now Lola has all that she needs. A collar with jewels, a pair of fur mittens, and two sequined earrings to boot.

This is one case of piggyness. This is one cause of inflation.

Inflation can be stopped. Of course, Government must do the big part. But, as shoppers, voters, wage earners, and businessmen, each of us can help.

So let's do it..

Published as a public service in cooperation with The Advertising Council and The International Newspaper Advertising Executives.

Inflation can be stopped. Let's all be a little less piggy.

Laos Probe Is Now Under Way

WASHINGTON (AP) — Sen. Stuart Symington, declaring it a "travesty" to deny that Americans are fighting and dying in Laos, today began a week-long effort to plumb the depths of U.S. involvement in that shadowy Asian nation.

The Missouri Democrat is chairman of a Senate foreign relations subcommittee which has called Richard Helms, director

Sweetener Ban Seen Cutting Pop Sales In Stores

DETROIT (AP) — If early indications are correct, diet pop is not going to be a very hot item at Detroit grocery stores in the wake of the government's decision to ban cyclamate sweeteners.

The order issued this weekend by the Department of Health, Education and Welfare calling for removal of artificially sweetened foods containing cyclamates does not take effect until the end of February. But many Detroiters stopped buying the products as soon as the announcement was made.

In banning the sweetener, the government cited evidence that the sweeteners apparently have caused cancer in rats when given in large doses.

People have stopped buying diet pop — the largest-selling cyclamate-sweetened product — and have tried to bring it back to stores.

"People keep bringing it back," said Donald Barrett, assistant manager of the Grocery Land Supermarket in Detroit. "They want to know what's safe and what isn't. How do I know? A lot of the stuff doesn't say what's in it."

"No one is buying it," said Steve Regas, manager of Jim's Market in Detroit. "People got a real scare and it's all at a standstill. Diet pop is usually one of our biggest sellers, but this weekend it didn't move, and if it doesn't move, then we're sure not going to reorder."

WOMEN OFTEN HAVE BLADDER IRRITATION

Common Kidney or Bladder Irritations affect twice as many women as men, often causing tenderness and nervousness from frequent, burning, itching urination. Secondly, you may lose sleep and have headaches, backaches and feel older, tired, depressed. In such cases, CYS-TEX usually brings relaxing comfort by curbing germs in acid urine, and easing pain. Get CYS-TEX at drugists today.

Lake Superior Teams 'Art Fair' Is Have Weighty Symbol Rated Success

Athletic teams at Lake Superior State College, Sault Ste. Marie, have a new symbol — an anchor from a 19th century freighter — thanks, in part, to the Detroit News.

Brad Shouldice and Dave Copeland, co-captains of the Lakers basketball team, wrote this letter to Contact 10, a reader service bureau of the newspaper.

"Michigan's newest, auton-

ous four-year college doesn't have a symbol. Lake Superior State College, up here in the Soo area, has a basketball team, a hockey team, cross country runners, wrestlers, etc. Since our teams are called the Lakers, we thought one or two tons of anchor from a Lakes ship might take care of this—and it would be very difficult for rival colleges to kidnap. Can Contact 10 get one for us in time for our opening game, Nov. 15?"

The Detroit News staff replied in Sunday's edition:

"We've never tangled with such a weighty problem before, fellas.... After netting nothing in the Detroit area and even in the Lower Lakes, we checked up north and found one practically in your back yard. Campus will soon be graced with the 10-foot handmade anchor from the freighter, V. H. Ketchum, which dates back to 1872.

"Built in Marine City, the 233-foot craft carried both engines and sails. Latter were required by insurance people who didn't completely trust engines until 1895 or so. No matter, for in 1903 the engines were removed and she was converted into a schooner-barge. While being towed to Wisconsin with a load of ore, she caught fire Sept. 16, 1905 and sank with a loss of two lives.

"In July, 1968, skindiver Al Bourland and friends flew over Ile Parisienne, off Goulais Point, and spotted the wreck in 30 feet of Lake Superior. Assisted by a tug and tow truck, they recovered the Ketchum's anchor, moved it to the Canadian Soo, put it on a front lawn there.

"Now it's yours. Get the basketball team, hockey team, cross country runners, wrestlers, etc., together, hand them the end of the anchor chain and let them give it the old college try. Should have it in place by game time."

Demos Claiming Milliken Leans On Ex-Governor

PETOSKEY (AP) — Michigan Democratic Chairman James McNeely says Gov. William Milliken "is leaning on former Gov. George Romney to provide the strength that Milliken lacks."

"That's why Milliken seems to have decided to beg Romney to come back to run for the Senate," (against Sen. Philip Hart, D-Mich.) McNeely said. McNeely spoke Sunday at a gathering of Emmet County Democrats in Petoskey.

"Bill Milliken obviously thinks his best chance of keeping things under control is to lean on George Romney, but I don't think the strategy will work," McNeely said.

McNeely said of the present secretary for housing and urban development: "As you remember, Romney's political balance is usually pretty precarious because he always has his foot in his mouth. I think even leaning a week reed like Bill Milliken against Romney standing there on one foot will be enough to send them both sprawling in defeat."

Buckeyes Bomb Gophers; Irish Tie Southern Cal

By The Associated Press

Ohio State apparently is the real McCoy as far as college football teams go...but Notre Dame's McCoy was a little too real for Southern California.

The Buckeyes of Ohio State, who leave little doubt from week to week who's No. 1, kept rolling along Saturday with a 34-7 victory over Minnesota.

But the big game of the week-end matched third-ranked Southern Cal and 11th ranked Notre Dame at South Bend, Ind., and it would up in a 14-14 standoff when McCoy, a 274-pound defense tackle, blocked a punt midway through the final period to set up the tying touchdown.

Second-ranked Texas and Arkansas, rated fourth, had the week off. Penn State, No. 5, barely got by fired-up Syracuse 15-14 and had to score all its points in the fourth quarter to do it.

Missouri, ranked sixth, beat back stubborn Oklahoma State 31-21, seventh-ranked Tennessee trounced No. 20 Alabama 41-14—giving Bear Bryant two negative records—and UCLA, No. 8, drubbed California 32-0.

Louisiana State, rated ninth, rolled over Kentucky 37-10 while Florida, No. 10, pasted North Carolina 52-2 behind John Reeves' four touchdown passes.

"It seems all we do is play ties with the Irish," muttered Southern Cal's John McKay and the teams battled to their second consecutive deadlock.

"We just didn't play well. Our offense let us down, or maybe it was Notre Dame's defense," he added after the Irish held Jimmy Jones to 11 pass completions for 116 yards and Clarence David to 75 yards in 30 carries.

McCoy burst through to block John Young's punt with Notre Dame trailing 14-7 and Walt Patulski recovered at the Trojans' six. Denny Allan scored from the one with 6:54 left and Scott Hempel kicked the tying point.

Hempel almost won it in the final two minutes with a 48-yard field goal attempt that hit the crossbar and bounced back.

Besides his blocked punt—"I think I blocked it with my head," he said—McCoy was in on 14 tackles.

"It was a helluva football game and no place for the timid," said ND's Ara Parseghian.

"We're going to play a good football game," said Minnesota's Murray Warmath before his date with Ohio State. But the Gophers fumbled the ball away five times, lost it once on an interception and were halted five times inside the Buckeye 20.

Penn State, its 23-game unbeaten string less than 10½ minutes away from being broken, rallied for two quick touchdowns—helped by a fumble, two key penalties and a short punt—and edged Syracuse. Franco Harris ran for a two-point conversion after Lydell Mitchell's four-yard touchdown plunge and then scampered 36 yards to tie the score before Mike Reitz kicked the decisive point.

Missouri also used the breaks to its advantage, turning a fumble, interception and short punt into two touchdowns and a field goal to defeat Oklahoma State.

Quarterback Bobby Scott's passing, the running of Curt Watson and Don McLeary and the fierce linebacking of Steve Kiner and Jack Reynolds helped Tennessee beat Alabama for the third time and hand the Crimson Tide its second consecutive setback—neither of which had ever been done to a 'Bama team under Bear Bryant.

Dennis Dummit's two touchdown passes to Gwen Cooper started UCLA off and running against California. Three quarterbacks directed LSU to 489 yards against Kentucky. And super soph John Reeves ran his record to 15 touchdown passes in five games as Florida mauled North Carolina.

Among the Second Ten, Steve Owens barreled for four touchdowns as 12th-ranked Oklahoma outlasted Colorado 42-30. Michigan State's offensive line opened the holes for Bill Triplett and Don Highsmith and a 23-12 triumph over arch-rival Michigan, which was rated 13th.

Georgia, No. 14, outclassed Vanderbilt 40-8, but Auburn, No. 15, needed John Riley's late

Howe, Red Wings Upend St. Louis

By The Associated Press

41-23-800. That's a great figure—a great hockey figure, by the name of Gordie Howe.

The 41-year-old Howe, now in his 23rd National Hockey League season, scored his 800th goal, counting regular season and playoff games, Sunday night and helped the Detroit Red Wings beat the St. Louis Blues 4-2.

Trailing 3-2 with 41 seconds left and a Detroit player in the penalty box, St. Louis pulled goalie Jacques Plante in favor of an extra skater in a bid for a tie. But Howe spoiled the strategy by stealing the puck and scoring into an empty net.

In other NHL games Sunday, Philadelphia tied Montreal 1-1. New York edged Toronto 1-0. Minnesota topped Chicago 4-1 and Boston bashed Pittsburgh 4-0.

Detroit built a 2-0 lead on

Nicklaus Scores Victory In Sahara Golf Tourney

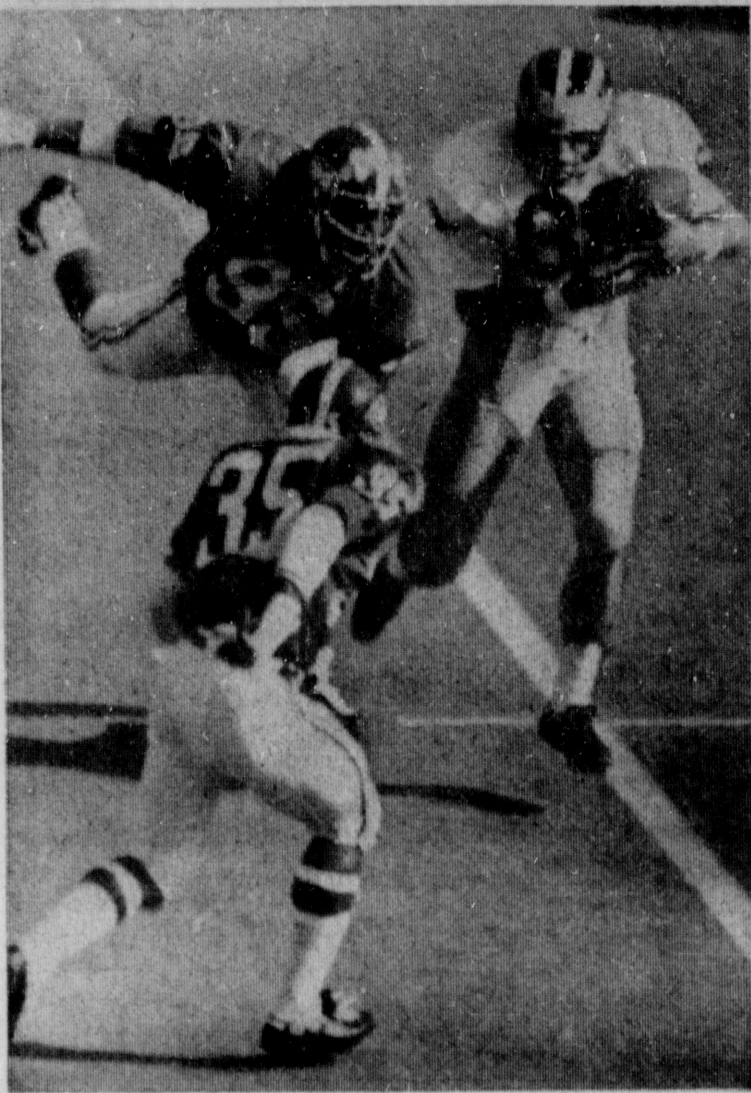

LAS VEGAS, Nev. (AP) — It's bad news for golf's touring pros: Big Jack—the real Jack Nicklaus—is back, once again flashing the awesome form that made him the most feared competitor in the game.

"I guess you'd have to go back to Baltusrol" where he won the U.S. Open in 1967 "to find a tournament where I've played so well," the Ohio strongman said Sunday after romping in with an easy victory in the \$100,000 Sahara Invitational.

Nicklaus, who notched his 30th career victory before his 30th birthday, closed with a brilliant 65, six under par on the 6,751 yard Sahara-Nevada Country Club course, for a 272 total, 12 under par.

He had a four-stroke margin over Frank Beard, the third-round leader, who finished with a 70 for 276. Dave Hill, 69, and Dale Douglass, 66, tied for third at 277 with Grier Jones, 68, and British Open champion Tony Jacklin, 69, next at 278.

But while it was business as usual for Nicklaus, Arnold

JIM MANDICH, Michigan end, takes a pass from quarterback Don Moorhead for a 17-yard gain in the first quarter of Saturday's game with Michigan State in East Lansing. Michigan State's Don Law (95) and Brad McLee (35) close in for the tackle. (AP Wirephoto)

Michigan State Darkens Michigan's Bowl Dreams

EAST LANSING (AP) — "You've got to play like you deserve it, and we haven't deserved it yet," said a disappointed coach Bo Schembechler about Michigan's suddenly snagged Rose Bowl ambitions.

Meanwhile, Michigan State coach Duffy Daugherty was a smiling contrast.

"It's still a long way to California," he said. "But at least this puts us back in the running."

The Wolverines had the inside track for the Rose Bowl after upsetting Purdue 31-20 a week ago. But Michigan State was the upset team Saturday, surprising favored Michigan 23-12 before 79,368 fans for Spartan Stadium's second largest crowd.

"I've been saying all along that we were not as bad a team as we looked in our losses," Daugherty said. "Our game plan was to run and we did it. We also had better ball control."

Last week MSU was overwhelmed by Ohio State 54-21, but the win Saturday upped its over-all record to 3-2 and its Big Ten mark to 1-1. Michigan now has the same records.

"They were a little too tight," Schembechler said of his players. "But don't underestimate their desire—let's make that point clear."

"Three hundred forty-eight yards rushing. That's terrible," he moaned, referring to Michigan State's running game Saturday. "We can't ever win football games giving up 348 yards."

It was quarterback Bill Triplett and halfback Don Highsmith who chalked up most of that. Triplett, who only threw four passes all afternoon completing one, ran 18 times for 142 yards.

Teammate Highsmith set a team record against conference opponents by carrying the ball 30 times for 129 yards.

"There wasn't any sense throwing against the wind," Triplett said, "and our running game was going well. That's why we stuck to the ground."

"It was a very typical Michigan-MSU game — both teams were hitting very hard," Daugherty said. "We've always felt that the U-M game was our No. 1 game each season."

But the Wolverines didn't hit hard enough as the Spartans

Haywood Stars In Season Debut

DENVER, Colo. (AP) — Former University of Detroit star Spencer Haywood scored 30 points Sunday in his regular season debut in the American Basketball Association.

But his performance wasn't enough to save the Denver Rockets as they lost 109-103 to the New Orleans Buccaneers.

Quantico Tops Northern 21-7

QUANTICO, Va. — Quantico's undefeated Marines spotted Northern Michigan a 7-0 first quarter lead, then roared back to beat the Wildcats 21-7 before 8,500 fans here Saturday afternoon.

NMU's Lonnie Holton, who sat out nearly three quarters after being injured, scored his 31st career touchdown midway in the first period to give the 'Cats the early lead. Safety Jim Danilko set it up with a 44 yard pass interception return and Holton scored from the one. Bob Bartkowiak's PAT made it 7-0.

Quantico scored twice in the second period following a pass interception and a blocked punt. Halfback Willie Belton, formerly of Maryland State, passed 21 yards to end Jerry Allen, property of the Kansas City Chiefs of the AFL, for one score, and Chuck Burt, who passed 1,200 yards as a sophomore for Wisconsin in 1965, ran two yards for the other.

Northern threatened several times in the second half, but fumbled once on the Quantico three, suffered two pass interceptions, and was stopped twice inside the Marines 20.

Quantico drove 97 yards following the third period NMU fumble for their final touchdown as Belton ran 21 yards for the score. Eli Smith of Grambling, formerly with the Los Angeles Rams, made one of the second half interceptions and nearly broke away for a score on a 46 yard return.

The victory was the 6th of the season for the Marines and their 7th in a row while the loss leaves Northern with a 3-3 mark. The Wildcats meet St. Norbert Saturday at Marquette in NMU's annual Homecoming game.

Troops Re-Enact Leyte Landing

RED BEACH, Leyte, Philippines (AP) — U.S. and Filipino troops joined forces again today for a small-scale re-enactment of Gen. Douglas MacArthur's return to the Philippines 25 years ago today.

Some 200 Filipino soldiers and marines splashed onto Red Beach from landing barges following earthshaking explosions in a mock sea and air bombardment. U.S. planes flew over, and Filipino paratroopers jumped.

President Ferdinand E. Marcos and U.S. Ambassador Henry A. Byroade led scores of military and diplomatic dignitaries attending the ceremonies. Crowds of Filipinos lined the beach.

Speeches recalled the heroism, glory and comradeship U.S. and Filipino forces shared. But Marcos also emphasized changes in Filipino-American relations since then.

He said that while both countries must be proud of their history together, there is a demand now for a fresh assessment of the relationship. He said all current agreements and treaties between the two nations must be reassessed. He said new generations have little use for the sentimental ties of days gone by.

The United States and the Philippines will begin talks soon to renegotiate the treaties and agreements pertaining to the four bases in the country at which about 30,000 Americans are stationed.

Recent Protest By Peace Corps Worries Pentagon

WASHINGTON (AP) — The White House is reported to be upset over public protests against the war in Vietnam by Peace Corps volunteers in at least six foreign countries.

In Turkey, Peace Corps members led a silent vigil outside the U.S. Embassy. In the Dominican Republic, volunteers ran a newspaper advertisement branding the war as unjust. Other protests took place in four South American countries, coinciding with mid-week Vietnam Moratorium protests throughout the United States.

Officially, the Peace Corps denied the White House flap. But inside sources reported Henry Kissinger, the President's foreign policy adviser, telephoned Peace Corps Director Joseph Blatchford to convey the displeasure.

The Vietnam war is a sensitive issue for the Peace Corps in many emerging nations where the U.S. involvement is under attack. The Vietnam issue is among the reasons blamed for the Peace Corps' ouster from Tanzania, which had been the first nation to ask for volunteers back in 1961.

In the Dominican Republic, one of the volunteers who signed the advertisement said, "For the first time, I think many people here have stopped looking on us as CIA agents."

The advertisement, signed by 38 members, called the war "unjust and irrational."

Brothers First Negro Dealers Of Ford Autos

DETROIT (AP) — U.S. Rep. John Conyers Jr. and his brother, Nathan, will become Michigan's first Negro Ford dealers in Michigan when they assume ownership of the oldest Ford dealership in Detroit Jan. 1.

Conyers, whose Detroit district includes the dealership, and his brother, a Detroit attorney, purchased Hetcher Ford Inc., for an undisclosed price.

Nathan Conyers, 37, will serve as president of the new Conyers Ford, Inc. While the Democratic congressman will act as first vice president.

Two other major partners in the new dealership are the Ford Motor Co. Development Branch, which supplies financing for new dealers, and John Conyers Sr., father of John Jr. and Nathan.

Two Cosmonauts Here For Visit

NEW YORK (AP) — Two Soviet spacemen arrive today for a two-week American tour. One of the first things they'll do is see "Hello, Dolly."

The cosmonauts, Gen. Georgiy T. Beregovoy and Konstantin Feoktistov, will travel from coast to coast, taking in colonial Williamsburg, Va. and the Grand Canyon, a movie studio and Disneyland in California and American space facilities.

The name, Venezuela, means "Little Venice," and was given to the South American country by Amerigo Vespucci because the natives built their homes on stilts in Lake Maracaibo.

DOWN TO EARTH and in snow are Col. Georgiy Shonin (left) and spacewalker Valery Kubasov, crew of the Soviet's Soyuz 6, launched into space ahead of Soyuz 7 and Soyuz 8. Scene is the Karaganda recovery area in Asia. Tass Photo.

Union Planning Tax Reform Fight

CLEVELAND, Ohio (AP) — Walter Reuther, president of the United Auto Workers, said recently that the Alliance for Labor Action, including the UAW, Teamsters and Chemical Workers, plan an all-out fight for tax reform.

Speaking to several hundred delegates to the founding convention of the Ohio UAW Community Action Program Council, Reuther said the nation's tax structure is the most inequitable of any free country. He said the low, moderate and middle income groups are affected most, while the higher income groups escape.

The union leader spoke for an hour and one-half on the great problems facing the nation and what the unions could do to help find solutions.

"America is in deep trouble," he said. "Every city is in crisis. The union must bring its solidarity and experience at the bargaining table and use that same spirit in dealing with the problems of the community."

He said action must be stressed in areas of better education, housing, medical care and human rights.

Doctor Suggests Training Plan For Supernurses

DENVER, Colo. (AP) — A pediatric professor at the University of Colorado Medical Center says training "supernurses" could provide great assistance in coping with a crisis in children's health care.

The "supernurses" or "pediatric nurse practitioners" are the central element of a plan on child health care that the professor, Dr. Henry K. Silver, presented to the annual meeting of the American Academy of Pediatrics in Chicago.

Dr. Silver said the "supernurses" could be trained to four months at a cost of \$4,000 each, far less than the cost of training physicians.

After the specialized course, the nurses would handle about 75 per cent of the children coming to a health station, he said.

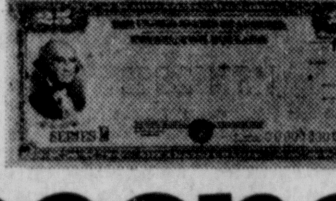

"They can give almost total care to well children," Dr. Silver said, "and can evaluate and manage a majority of the sick and injured children seen in an ambulatory office setting."

He said the "supernurses" could be trained in groups of 20 a year at 100 training centers.

Forty-eight of the special nurses have been trained in a Colorado program.

Area Extension Homemakers To Meet Tuesday

Are you a satisfied consumer? Or do you sometimes want to make a gripe about something you purchased? How do you make it and to whom do you make it?

These questions will be discussed at an Extension Homemaker's meeting at 1:30 p.m. Tuesday at the Delta County Building. Other interested women are also invited to attend.

Miss Lucile Ketchum, extension specialist, Michigan State University, will lead the discussion on being a more satisfied consumer.

Better Business Bureaus, Chambers of Commerce, various state and national government organizations, are organized to help the consumer. Many companies do research and testing before their products are marketed.

In spite of all this assistance, consumers, at times, are dissatisfied with a purchase.

Miss Ketchum will discuss not only how to make a legitimate gripe, but also how to avoid making an unsatisfactory purchase. Bulletins and printed material will also be available.

Similar meetings are scheduled for 7:30 p.m. Wednesday at the Zion Lutheran Church in Manistique and at 1 p.m. Thursday in the community room of the Bank of Stephenson.

Ingrid Tervonen, area extension home economist, is in charge of arrangements and can be contacted by calling 786-3032.

The final vote for the title will be held Tuesday, with the winner receiving her crown that night at the Homecoming Concert, featuring "The Association." (NMU Photo)

LaBranche BOE's Plan Fall Activities

The LaBranche BOE's 4-H Club held their fall organization meeting at the home of leader Mrs. Robert Bellefeuil.

Barbara Welch reported on her five day stay at the state show on the campus of Michigan State University in August.

Kim and Colette Stebbins, Tracy and Jim Bellefeuil, and Kim Mileski told of their experiences while on the club's overnight campout at the backwaters of the Peavy Dam, including a tour of the dam and its auxiliary buildings. A report on the teen leader school held at Pine Mountain Lodge in Iron Mountain was made by Janet Kasbohm.

Fall plans drawn up by the BOE's include participation in "Operation Mail Call," for the American G.I.'s in Vietnam. The club plans to send letters accompanied by hand fashioned mini cards for distribution to the servicemen.

Both the public Halloween party and Community Christmas Night were dropped from club plans this fall as the leader will not be free to assist with either.

The club will go caroling at neighborhood homes during the holiday season. The sewing project will resume after Christmas.

Bridge League Session Held

Delta Duplicate Bridge League met Saturday night at the Sherman Hotel and winners were: Mr. and Mrs. Robert Pearson Jr., Cal Douck and Mrs. Jean Bonefeld; Mr. and Mrs. Al Taylor; Mr. and Mrs. Leo Alperovitz; Mr. and Mrs. Clyde Lepisto; Mrs. Helen London and Mrs. Turin; Mr. and Mrs. Fred Boddy.

The next session will be held in two weeks.

Mrs. Ottensman Honored By Salem Members

A large crowd participated in a family night fellowship meal Sunday evening at Salem Evangelical Lutheran Church.

During the evening Mrs. Kate Ottensman was honored for serving as organist at Salem for the past 50 years. Gifts of appreciation were presented to her from the congregation, the Ladies Aid and the Sunday School.

During the balance of the evening Pastor J. J. Wendland showed slides of Alaska. The trip to Alaska which Pastor and Mrs. Wendland took recently was made possible by anniversary gifts from church members.

A number of handcraft items, sea shells and Alaskan jewelry were also on display.

Births
